Spring 2023

GSODI Forum on Open Data and Artificial Intelligence

A discussion on the value creation potential of aligning open data with AI, especially generative AIs like ChatGPT and Bloom, with reflections on public policy

Friday, April 21 | 11:00 a.m.-1:30 p.m.

Welcome and coffee at 11:00 a.m., Experts Panel at 11:30 a.m., Lunch at 12:30 p.m.

at the Gov. James J. Florio Special Events Forum, 33 Livingston Avenue, New Brunswick, NJ

This Open Data Forum will consist of a panel of eminent experts from the government, academia, business and media, and will present leading ideas on topics of growing importance related to open data and artificial intelligence (AI) with a focus on the impacts of aligning open data initiatives with artificial intelligence (AI), and the benefits and challenges of using applications such as Bloom, Stable Diffusion and CodeWhisperer. How will this impact the open data movement? Can ChatGPT output be treated as open data and what are the implications of treating the output from generative AIs as open data? This discussion was inspired by research on the Garden State Open Data Index (GSODI).

The Open Data – AI panel includes eminent experts as guest speakers:

- **Poonam Soans**, Chief Data Officer & Director of Application Development, State of New Jersey
- **Rakesh (Teddy) Kumar**, PhD., Vice President, ICS, Center for Vision Technology, SRI International
- **Clint Andrews**, PhD, Professor & Associate Dean, Bloustein school, Rutgers University
- **Rachel Rosenthal**, Bloomberg, editorial board member

The discussion will be moderated by professor **Jim Samuel**, Executive Director, Bloustein School Informatics Program.

Free and open to the public. REGISTRATION IS REQUIRED AS SPACE IS LIMITED.
Registration required by visiting <https://go.rutgers.edu/gsodiforum>

This workshop is part of the II@B series from the MPI (Master of Public Informatics) Program at Bloustein
