

11th Annual New Jersey Big Data Alliance Symposium
Theme: “Artificial Intelligence Impacts on Society and Higher Education”
May 17, 2024
Hosted by Rutgers University
Where: New Brunswick, NJ 07079

Call for Abstracts – Due by March 22, 2024

The **New Jersey Big Data Alliance (NJBDA)** is an alliance of 18 higher education institutions, as well as industry and government members, that catalyzes collaboration in advanced computing and data analytics research, education, and technology.

The [NJBDA Annual Symposium](#) brings together academia, government and industry from across the state and beyond, to share information on the latest innovations, research and future directions in Big Data. The concept for this year is “Artificial Intelligence Impacts on Society & Higher Education”. **We invite academic and industry researchers to submit abstracts of their research for presentation at the symposium.**

The 2024 Symposium will include academic research sessions with presentations on current applied research in Big Data, AI, and Machine Learning.

Other topics of particular interest related to the focus of the symposium are welcome, including, but not limited to: Learning and Generative AI, Ethical Implications of AI, AI and Workforce Readiness, AI for Educational Equity, AI and Societal Inequity, AI and Algorithmic Bias, AI and Student Success, AI and Academic Research

Abstracts should be a **maximum of 650 words** and submitted by **March 22, 2024**. Indicate your name, email, department, university affiliation, title of presentation and track, at the top of the abstract. This information does not count towards the 650-word limit.

Submit Abstract to: <https://easychair.org/my/conference?conf=2024njbdaannualsympo>

Notification of acceptance by **April 17, 2024**

We look forward to your submissions!
